Cyber Liability Amendatory

In consideration of the premium, the policy is amended as follows:

1. The following exclusion is added to the Exclusions Section:

Security Failure and Privacy Event

This policy shall not cover **Loss, Direct Financial Loss** or any other amount in connection with any **Claim, Dishonest Act** or other matter directly or indirectly arising out of, based upon or attributable to any **Security Failure** or **Privacy Event**.

2. The following definitions are added to the Definitions Section:

Computer System means

- (i) computer hardware, software or any components thereof, including wireless or mobile equipment or other devices enabled to electronically send or receive information, that are linked together through a network of two or more devices accessible through the Internet, internal network or connected with data storage or other peripheral devices and are under ownership, operation or control of, or leased by, the **Policyholder** or any **Subsidiary**; or
- (ii) cloud computing or other hosted resources operated by a third party service provider for the use of the **Policyholder** or any **Subsidiary**.

Confidential Information means

- (i) information relating to an identified or identifiable natural person including, without limitation, information from which an individual may be uniquely and reliably identified or contacted; or
- (ii) any third party's information (including any trade secret) that is not available to the general public.

Privacy Event means

any failure to protect **Confidential Information** including, without limitation, that which could result in:

- (i) the disclosure or misappropriation of **Confidential Information** in the care, custody or control of the **Policyholder** or any **Subsidiary** or for which the **Policyholder** or any **Subsidiary** is legally responsible; or
- (ii) identity theft or other wrongful emulation of the identity of an individual or corporation.

Security Failure means

any failure or violation of the security of a **Computer System** including, without limitation, that which results in or fails to mitigate any unauthorized access, unauthorized use, denial of service attack or receipt or transmission of a malicious code. **Security Failure** also includes any such failure or violation, resulting from the theft of a password or access code by electronic or non-electronic means.

All other terms, exclusions and conditions of this policy remain unaltered.
